

August 1, 2007

Dear Valued Hayward Customer:

In our continuing effort to enhance the value, technology, and energy efficiency of the Hayward product line, we are proud to announce the introduction of our new Hayward® Universal H-Series gas heater.

The new Hayward® Universal H-Series is a totally new gas heater design that combines industry-leading hydraulic performance, environmentally responsible low-NOx emissions and superior reliability with the installation flexibility to easily adapt to new or existing pools and spas for what just might be the most perfect combination of features and benefits ever offered in an in-ground pool and spa heater.

Hayward's Universal H-Series gas heater adapts to each pool and spa owner's needs to make life a little more flexible and convenient.

Features and Benefits of the Hayward® Universal H-Series Heater include:

- **Style with Performance and Technology**
  - Great Low Profile Appearance
  - Environmentally Responsible Low NOx Emissions
  - Patent Pending Polymer Header Design for Industry Leading Hydraulic Performance
  - Totally Managed Cupro Nickel Heat Exchanger Flow for Superior Reliability
  - 2" x 2 ½" CPVC Union Plumbing Fittings
- **All the Right Connections for Easy Installation, Service and Use**
  - Ultimate Installation Flexibility for New or Existing Equipment Pads
  - Independent Left or Right Side Electric, Water and Gas Connections
  - 25% Lighter Weight Means Less Physical Effort to Install
  - ONLY Front Panel Access Required for Installation and Service
  - Easy Gas Valve Adjustment
  - Easy Dual Voltage Conversion with Fuse Protected Circuit Boards
